

NOVEMBER 4-5, 2011

Federico Santa María University,
Campus San Joaquín, Santiago

48 hours and the biggest tech event of Chile...

Eleven world stars as keynoters...

Google, Yahoo!, Adobe y Microsoft as support...

A Thousand students, entrepreneurs, programmers, engineers and designers as attendees...

Live streaming to the world...

Twenty locals geeks as speakers...

This Conference in the eyes of the world...

A Large Conference that brings together the Best Stars from all over the world who specialize in Software Development (Engineers from Google, Yahoo!, Microsoft, Mozilla, Adobe, and many more).

Placing Chile on a level never seen before in the technology environment, attracting investors and entrepreneurs, encouraging students to investigate the latest technology and strengthening the skills of professionals currently working in this area.

Rey Bango

Client-Web Community Program Manager for Microsoft and member of the jQuery Team. Editor of ScriptJunkie.com.

Jonathan Snook

Front engineer at Yahoo!. Co-author of the best sellers "Accelerated DOM Scripting with AJAX, APIS and Libraries" and "The Art and Science of CSS".

Obie Fernandez
