

**NOVEMBER 4-5, 2011**

**48 hours and the biggest tech event of Chile...**

**Nine world stars as keynoters...**

**Google, Yahoo!, Adobe y Microsoft as support...**

**A Thousand students, programmers, engineers and designers as attendees...**

**Live streaming to the world...**

**Twenty locals geeks as speakers...**

**Santiago of Chile in the eyes of the world...**

A Large Conference that brings together the Best Stars from all over the world who specialize in Software Development (Engineers from Google, Yahoo!, Microsoft, Mozilla, Adobe, and many more).

Putting Chile on a level never seen before in the technology environment, attracting investors and entrepreneurs, encouraging students to investigate the latest technology and strengthening the skills of professionals currently working in this area.
